

ET-2

THERMOPLASTIC LED EMERGENCY LIGHT SERIES

SP Approvals:
CSA Certified to C22.2 #141.15

DESCRIPTION

The Stanpro ET-2 is a decorative emergency light which will fit well in any commercial application. The ET-2 emergency light comes with two 3W LED lamps for emergency mode. The housing is made of injection-moulded thermoplastic polycarbonate. The light direction can be easily adjusted without removing the lens. Its design also makes it suitable for damp locations.

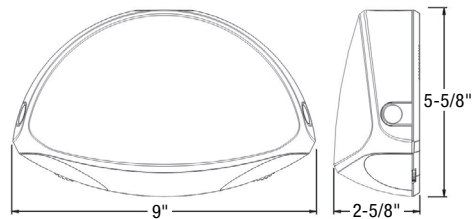

CIRCUITRY

- 120/347VAC input field selectable
- Maintenance free, sealed lead acid battery
- 6W of LED for 90 minutes (2 x 3W LED lamps)

MECHANICAL

- Wall or pendant mount
- Knockout pattern for wall or pendant mounting on the back of the unit
- Once installed and wire connections terminated unit is simply snapped on to the plate
- Light direction can be easily adjusted without removing the lens
