## PAR36 LARGE REMOTE

Plastic Construction

Single, Double or Triple

6V, 12V, 24V & 120V Lamps in Quartz & Tungsten

**SP** Approvals:  
CSA Certified to C22.2 #141.15

### DESCRIPTION

The L series of commercial thermoplastic PAR36 remotes offers traditional styling with superior performance. The fully adjustable heads both tilt and swivel and are lockable. The standard canopy is designed to mount directly to typical electrical junction boxes. Available in 6V, 12V, 24V and 120V models, utilizing either tungsten (wedge or D.C. bayonet based) or quartz halogen (bi-pin based) lamps.

### DIMENSIONS

### MECHANICAL

- UV stabilized, high impact thermoplastic construction
- Fully adjustable - both tilt and swivel
- 5" diameter thermoplastic canopy standard
- Two recessed canopy mounting holes designed to match standard electrical junction boxes
- White Colour is standard, black is optional
- Variety of lamp options:
  - 6VDC, 12VDC, 24VDC or 120VDC.
  - Tungsten lamps - wedge or dual contact bayonet based
  - Quartz halogen lamps - bi-pin based
  - Sealed beam lamps - terminal connectors
