“NOAH”

WET LOCATION ANTI VANDAL REMOTE

CSA Sanitation certified to NSF 2

Single or Double

6V, 12V & 24V Lamps in LED & Quartz

IP RATING
66

Approvals:
CSA Certified to C22.2 #141.15 NEMA 4X

DESCRIPTION

The SWN series of wet location anti vandal remotes is designed to perform in extreme environments. The single or double lamp assemblies are completely protected from the elements within a fully gasketed polycarbonate housing. Available in 6V, 12V and 24V models, utilizing quartz halogen or LED (bi-pin based) lamps.

MECHANICAL

- Polycarbonate enclosure is fully gasketed around lens and canopy to prevent water infiltration
- Stainless steel tamper proof screws and bits
- Wet location
- Lamps are fully adjustable
- Fully gasketed housing
- Available in white and black
- 6VDC, 12VDC or 24VDC
- Quartz halogen lamps - bi-pin based
- LED lamps - bi-pin based
- Universal spider knockout pattern stamped into backplate for junction box mounting
